OBJECTIVE

Motivated Computer Science undergraduate with strong foundations in Python, Java, Web Development, and Artificial Intelligence. Passionate about building intelligent applications using AI/LLMs and full-stack technologies. Seeking opportunities to contribute to innovative software projects while continuously enhancing technical and problem-solving skills.

EDUCATION

Maharaj Vijayaram Gajapathi Raj College Of Engineering , B tech , CSE	2023-2027
CGPA : 9.00	
Sri Chaitanya junior college , Intermediate, MPC	2021-2023
Percentage : 96%	
Narayana school , SSC	2020-2021
Percentage : 99%	

SKILLS

Languages	Python
Web Development	HTML, CSS, Javascript
DataBase	MySQL
Tools	Git, GitHub, VS Code
Soft Skills	Creative Thinking, Content Strategy, Communication, Team Collaboration

PROJECTS

Local AI Interface

- **Technologies Used :** JavaScript, HTML, CSS, Ollama llama3
- Developed a responsive web-based chat application to interact with a locally-hosted Llama 3 Large Language Model.

Multi-Language PDF Simplifier with Audio

- Developed an AI-powered application that converts complex PDF content into simplified explanations in multiple languages and provides audio narration using Text-to-Speech technology.
- **Technologies Used:** Python, NLP APIs, Flask/FastAPI, HTML, CSS, JavaScript, TTS APIs

EXPERIENCE

Python full stack developer intern-Eduskills

December 2025 – March 2026 (10 Weeks)

- Developed full-stack web applications using Python and modern web technologies.
- Worked on frontend and backend integration.
- Gained practical experience in software development lifecycle and project deployment.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) -cisco
- Generative AI Foundations-aws academy
- Python essentials(1&2)-cisco
- Machine learning foundations-aws academy
